## Profile

Skilled Full-Stack Developer with over 3 years of experience in software development, complemented by a 3-year license in Informatique Education. I have hands-on experience from a 3-month internship at ETB Sonelgaz. Adept at developing integrated software solutions that enhance efficiency and drive performance, I bring a robust technical foundation and a problem-solving mindset to every project. Proficient in leveraging cutting-edge digital tools and platforms, I am committed to delivering high-quality software solutions that meet and exceed user expectations.

## Skills

- **Programming Languages:** Java, JavaScript, SQL
- **Web Development:** HTML, CSS, Tailwind, React.js, Next.js, Express, Spring Boot, Firebase, React Three/Fiber
- **Software Engineering:** Object-Oriented Programming (OOP), Software Development Lifecycle (SDLC), Agile (Scrum)
- **Version Control:** Git, GitHub

## Experience

### Internship, [ETB Sonelgaz](#)

blida, Algeria 02/2024 - 06/2024

- Assisted in the development and maintenance of software applications for internal processes.
- Conducted testing and debugging of applications to ensure functionality and performance.
- Collaborated with senior developers to design and implement software solutions.

### Self-employed, *Freelance Software Developer*

blida, Algeria 2022

- Developed custom software solutions for various clients, including web applications and desktop software.
- Designed and implemented user-friendly interfaces for web applications.
- Managed the full software development lifecycle, from requirements gathering to deployment and maintenance.

### Student, *University Projects*

blida, Algeria 2020 - 6/2024

- Led the development of multiple university projects, including a library management system and an online marketplace.
- Utilized technologies such as HTML, CSS, JavaScript, and Python to create functional and efficient applications.
- Collaborated with peers to develop and present projects, ensuring high standards of quality and innovation.

Certainly! Here is the updated section:
